

FRANK COLLIER IS NEARLY DEAD

The Eccentric Chicago Lawyer Is Paralyzed in Cook Co. Hospital.

A PECULIAR MAN

Was a Conspicuous Figure in Political and Legal Circles.

HIS PATHETIC STORY

Frank Howard Collier, the eccentric Chicago lawyer, who at one time had a great fondness for this city and amused people, especially the patrons of the Hotel Myers and the Grand at which he made his headquarters, with his grotesque actions, is critically ill in the Cook county hospital, having suffered a severe stroke of paralysis. It is expected that death will soon lay low the man whose many peculiarities made him famous and who had a great fondness for distributing cigars with a lavish hand to men and hot house roses to women. He also had an aversion to paying railroad fare and tried to beat his way. He liked the sound of his own name and was fond of proclaiming it on all occasions. During the time when he visited Janesville frequently he kept himself constantly in prominence.

Concerning him the Record-Herald of this morning says:

"Frank Howard Collier, the eccentric lawyer whose legal genius brought him into prominence before the bar and public and into the field of politics, where all his misfortunes are said to have emanated, lies in the county hospital unable to move, but still possessed of the power of speech. The bulky frame of the 300-pound man has suffered a stroke of paralysis, rendering his lower limbs useless. Internal difficulties have added to other physical and mental complications, so that the physicians in attendance hold forth little hope for his recovery."

"Than Collier there has been no man in the history of the city whose extraordinary peculiarities and eccentric traits of character have attracted more attention. Adjudged mentally deficient by a court and jury and committed to the hospital for the insane at Dunning, he secured a release upon a writ of habeas corpus tried himself before former Judge McConnell, having the best of the county's legal lights by his witty sallies, adroit methods of defense and extreme cunning in covering up testimony concerning his past actions which would reflect upon his sanity if adduced in evidence."

"Collier is known as genial, whole souled and generous. His loyalty to a cause or friend is unswerving and undoubted. A wit whose stories oft repeated carried his name with them he soon became generally known among his legal brethren. Advancing along the lines laid down by corporation law he worked his way to the front rank and was selected general counsel for the Chicago, Burlington & Quincy railroad. Fame as a trial lawyer and legal expert soon gave him the nucleus for a comfortable competence. This, however, during recent years has been dissipated by adverse circumstances."

"It was during the heat of the campaign for the mayoralty when De Witt C. Cregier defeated John A. Roche for re-election that Collier, then a republican changed front politically and supported Cregier, the democratic nominee."

"One of the old fashioned, free-for-all election days resulted, when slung-shots, thugs, plug-uglies and repeaters ruled the tide of battle. Many and frequent were the fights about the polling places. It was as a result of this campaign, many of Collier's friends believe, that Collier was assaulted and rendered insensible while passing an alley on his way to his home one night. His political supporters charged his political enemies with the deed. The latter denied the allegations in toto and

asserted that he assault was committed by highwaymen.

"Collier never completely recovered from the effects of the blow dealt upon the back of his head at the base of the brain, though several operations were performed. He deserted his law offices to roam and ride around the streets, picking up with odd companions, sometimes driving a tandem team up and down west side boulevards giving away cigars to every man that he met. Meeting a newsboy on the streets he would buy his entire stock of papers. Peculiar signs he had painted upon his Jackson boulevard residence. Some even now remain."

"Finally there came domestic difficulties. His wife and three children were advised by friends to seek another place of abode. They journeyed quietly to a modest establishment at Fifty-seventh street and Madison avenue without notifying the father of their whereabouts. Resting thus secure from what they believed was the father's intent to do them violence, one night the three small children were kidnapped. They were finally restored to the mother. Later on came divorce proceedings."

"During the legal complications and the settlement of the estate between the members of the family Collier was again taken into the insane court. Judge Donnelly sat for Judge Carter. Then followed a trial of over a fortnight's duration. Collier defended himself in a masterly manner, although at times he conducted himself in a most ridiculous way. So apologetic could he become that when he called the court "mad" Donnelly there seemed no recourse for his honor."

"The jury found Collier sane."

TRAFFIC FALLS OFF AT THE BIG BRIDGE

Public Confidence Has Received a Severe Shock at the Condition of Brooklyn Bridge.

New York, July 27.—Although engineers have declared the Brooklyn bridge safe public confidence has received a severe shock and there has been an immense falling off in traffic.

SHAMROCK SECOND STARTED ON TRIP

New Challenger is Given Enthusiastic Farewell—Escorted by Steam Yacht Erin.

Glasgow, July 27.—The new cup challenger, Shamrock Second, escorted by the steam yacht Erin, started on her trip across the Atlantic this morning. She was given an enthusiastic farewell.

FOREIGN TRADE GROWING LARGE

Balance of Exports Over Imports is Enormous—Shipments of Goods Abroad Show Great Gains.

Washington, D. C., July 27.—The detailed figures of the foreign commerce of the United States in the year ended June 30, 1901, were completed by the treasury bureau of Statistics today. They show total imports, \$322,673,016; total exports, \$1,457,755,557; exports of domestic products, \$1,460,453,809.

The imports by great classes in the fiscal year, 1901 compared with the preceding year are as follows:

Articles of food and animals, in 1900, \$218,510,098; 1901, \$222,227,898; articles in crude condition for use in domestic industry, in 1900, \$302,426,748; in 1901, \$293,763,494; articles wholly or partially manufactured for use in manufacturers and mechanic arts, in 1900, \$88,433,549; in 1901, \$79,030,716; articles manufactured ready for consumption, in 1900, \$123,900,597; in 1901 \$130,662,903; articles of voluntary use, luxuries, etc., in 1900, \$111,670,094; in 1901, \$120,938,095.

The reduction in value of imports appears chiefly in raw silk, hides, and skins, wool, and India rubber; and in most of these the reduced value is due partially to reduction of price rather than quantity.

HERRON RAVES AT CAPITALISTS; UNDERMINING OUR INSTITUTIONS

Declares Schools and Pulpits Are Not Free From the Money Influence—All for Greed and Gain.

Chicago, July 27.—"The public school, once the threshold and bulwark of American liberty and progress in now throttled by capitalists; by the men who own the nation. Directors, teachers, superintendents, principals—every part and person of the system, are owned and tyrannized over by a single corporation—the book trust. The very history which your children read and are taught to believe, is made, written and enforced by a gang of organized capitalists. No man or woman in power in the American public schools today dares to resist this influence in the schools. Your children are being taught with or without your consent, the things and only the things which amalgamated money wishes them to know."

That is what George D. Herron, socialist, lately professor in Iowa college, Grinnell, Iowa, and formerly pastor of the Congregational church at Grinnell, shouted at 2,000 socialists assembled at 120 South Western avenue last night.

HORSEWHIPPED A YOUNG LADY ON THE STREETS OF MADISON

Miss Alice Monahan Attacked by Former Lover, Wm. Klurssmann, a Printer, and Severely Whipped for Using Insulting Remarks to His Lady love

Madison, Wis., July 27.—Miss Alice Monahan, a young lady of this city, was horse whipped on the street here last evening by William Klurssmann, a printer, with whom she formerly kept company. Her screams brought a crowd to the scene, and Klurssmann was in danger of rough usage, but quickly jumped into his buggy and drove away. Klurssmann kept company with Miss Monahan until a short time ago, when he transferred his attention to Miss Mollie Regan, with whom he has taken frequent buggy rides. He says that several times while riding with Miss Regan they have been subjected to insulting remarks from Miss Monahan while passing her on the street. Last evening, when the same thing happened again, he turned his horse into the gutter, handed the lines to Miss Regan and seizing the whip sprang from the buggy and struck Miss Monahan with it several times. Some of the blows fell across her shoulders, but once at last the lash wound around her neck, cutting the skin, raising an ugly ridge. Miss Monahan has consulted an attorney and will probably seek redress in the courts. There has been on arrest.

J. H. CHAPMAN IS AGAIN PRESIDENT

Baptist Young People's Union in Session at Chicago Reelect All the Officers.

Chicago, July 27.—J. Campbell Morgan, best known as "Moody's successor", spoke, to the general session of the Baptist Young People's Union convention yesterday afternoon. His address was a confident prophecy of Christian victory, which he said, the young people are to bring about. Mr. Morgan warned young people against the atheism of indifference as the great danger of the age. He said that there is a tendency to live without taking God into account.

The election of officers of the union was one of the least important features of the convention, it judged by the time and attention devoted to it. John H. Chapman was re-elected president and the other officers generally continued in their places. The subject of the evening session in the Coliseum was related closely to what has been chosen as the "key-note" of the convention, "Kingship." There were three addresses, the first on "Subjects of the King in Recreation" by Rev. W. J. Williamson of Kansas City; the second on "The Subjects of the King in Business" by Isaac W. Carpenter of Omaha; and the third on "The Subjects of the King in the State" by the Rev. G. L. Morrill of Minneapolis.

Plans have been announced for an excursion on Monday which is to take the young people on a daylight trip to Buffalo. A special train of chair cars will leave over the Wabash road at eight o'clock in the morning and arrive at Buffalo in the evening.

Kirby Thomas for Postmaster
Chippewa Falls, Wis., July 27.—Congressman John J. Jenkins returned last night from West Superior, where he had been in conference with leading citizens in that section in the postmaster question. On his arrival he announced that he had decided to recommend Kirby Thomas of the West Superior Evening Telegram for the position.

THREE KILLED IN WORK TRAIN WRECK

Work Train Wreck on a New Line of Railway in Ohio Causes Death of Three Men.

Dayton, O., July 27.—By the derailing of the work train on the new line of railway between Dayton and Greenville, this morning, three were killed and four seriously injured. The dead are Orville D. Shaw of Detroit, Chief Engineer Chase of the construction company and W. B. Gravel, engineer of Chicago.

MANY ARE KILLED HOUSES BURNED

Whole Province of Shingning, Manchuria, in a State of Insurrection—Hundreds of People Killed.

Victoria, B. C., July 27.—Advises by the steamer, Duke Fife from the Orient report the whole province of Shing Ning, Manchuria, in a state of insurrection. Rebels are pillaging and burning and hundreds of people have been killed. Russian forces are inadequate to maintain order.

MADE AN ASSAULT UPON ARCHBISHOP

Wealthy Pole Murderously Assaults Arch-Bishop Haussmann Before the Altar—He May Die.

Lemberg, Austria, July 27.—A wealthy Pole named Wasilisein today murderously assaulted Archbishop Haussmann before the altar in the cathedral. The archbishop is expected to die.

Names Ellis for Congress
Marquette, Wis., July 27.—Considerable of a stir has been created here by the Wausauke Independent, which in its current issue, proposes the name of William Ellis, Jr., of Peshigo, for the republican congressional nomination in the Eighth district. His is the first name proposed. Edward Minor, congressman from the present Eighth district, is said to be an avowed candidate for the nomination and States Senator Henry Hagemeyer of Green Bay is also said to be looking for it.

VETERANS WILL GO TO CLEVELAND

Badger G. A. R. Will Be Represented at the Annual Encampment in September Next.

Milwaukee, July 27.—Everything indicates that Wisconsin veterans will be well represented in the thirty-fifth national encampment, G. A. R., at Cleveland, September 9-14. Conservative estimates place the number from the state at 2,000 to 2,500. E. B. Wolcott post is already making arrangements for the trip. A special train will be run from Milwaukee by the post, with a special car from Berlin for the accommodation of Grand Army men in that section. The probable number of comrades from Wolcott post who will attend is 200. Members of Robert Chivas post are talking of joining Wolcott post for the trip this year.

The National association of Mexican war veterans will hold its annual convention in Cleveland, G. A. R. encampment week. Other organizations which will convene in Cleveland during encampment week are the Women's Relief Corps, Ladies of the Grand Army, Sons of Veterans, Daughters of veterans, National association of Naval Veterans, and its Woman's Auxiliary, the National association of Army Nurses and the Loyal Home Workers.

DELAY FOR THE ELECTRIC LINES

Steam Roads Are Said To Be Blocking the Proposed Madison-Janesville Interurban Line.

Madison, Wis., July 27.—The opposition of the Chicago, Milwaukee and St. Paul railroad is delaying the work of building the new interurban electric line between this city and Janesville. The opposition has concentrated its efforts at Stoughton, where it is trying to hold up the franchise of the company projecting the new line. While it is not believed that the opposition will be able to delay the construction of the line very long business men of this city are chagrined at its tactics, for they appreciate that the new road will be of enormous benefit to the commercial and summer resort interests of all of the cities along the line. It is hoped here that the common council of Stoughton will immediately grant the franchise asked by the new company.

SAY STEEL STRIKE WILL SOON BE ENDED

An Air of Confidence That Steel Strike Will Soon be Settled Prevails in Wall Street.

New York, July 27.—An air of confidence that the steel strike will soon be settled prevailed in Wall street today. Those who profess advance information declare the secret negotiations to that end are now in progress.

MEN DID NOT STRIKE AS WAS EXPECTED

Boston Iron and Steel Company and National Rolling Mills Did Not Strike This Morning.

McKeesport, Pa., July 27.—Contrary to expectation employees of the Boston, Iron and Steel company, and of the National Rolling Mills, both adjuncts to the Steel Trust did not strike this morning. The situation remains practically unchanged. Considerable excitement was created by the report that Dewees the Wood Plant will be placed in operation next week with non-union men.

A NATIONAL MEET TO BE HELD MONDAY

Social Democrats to Gather at Indianapolis, Ind., to Bring Fac-tions Into One Organization.

Indianapolis, Ind., July 27.—The National meeting of the social democrats begins here on Monday. The purpose of the meeting is to bring all factions of the socialists into one organization.

Sailed for the States
Havana, July 27.—Governor General Wood and family sailed for the States today.

CHAMPION HOT WEATHER LIE

Pink Mink Marshes of Winamac, Ind., Are in Old Time Form

Winamac, Ind., July 27.—For several weeks the residents of this quiet village on the banks of the Tippecanoe have been sweltering in the heat of the torrid zone.

Squire A. R. Holliday and Major R. S. Rogers, two prominent citizens of this place, hung a thermometer in the branches of a large white oak in front of their place of business. They hung the thermometer where the torrid rays of the sun would strike it. The mercury rose slowly but steadily until it reached the top. The pressure on the tube became so great that the tree gradually commenced to rise from the ground until its roots were released and the tree sailed away like a balloon, and disappeared in the far Western horizon.

"By gum, major," said the squire, "the darn newspapers will want our pictures."

HOST OF CIGARMAKERS QUIT

About 5,000 Workmen Go Out on Strike at Tampa, Florida

Tampa, Fla., July 27.—A general cigar-makers' strike was officially declared here at noon today. This is a strike of all La Resistencia workmen, about 5,000 in number, because the International Union men were at work in their factories. The men did not leave the factories at once, but agreed to close up the day's work and then walked out. Only three factories remain unaffected by the strike and they have International men at work. Now that a strike has been declared, the men will demand an average increase of \$5 per 1,000 cigars before they accept a settlement.

MAINE IS LAUNCHED AT PHILADELPHIA

Thousands Cheer as the Mighty Addition to the American Navy Plunged into the Water.

Philadelphia, July 27.—The battleship Maine was successfully launched here this morning.

The weather was ideal and thousands cheered as the mighty addition to the American navy plunged into the water. Just as she cut loose from the ways the vessel was christened by Miss Mary Preble Anderson of Portland, Me., who broke a bottle of American wine on her prow. The Maine is far superior as a fighting machine to the warship down in Havana harbor. She is a sister of the Ohio, launched at San Francisco on the occasion of the president's visit to the Pacific coast.

THIEVES ROB SAFE MAY BE SOLDIERS

Twenty Thousand Dollars Taken From the Army Safe at Santa Cruz—Soldiers are Suspected.

Manila, July 27.—Thieves stole twenty thousand dollars from the army safe at Santa Cruz yesterday. The safe was in the guard house and it is believed that the soldiers took the money.

FULEY WANTS NOMINATION

Hayward Man Wishes to Become State Treasurer

West Superior, Wis., July 27.—H. P. Fuley of Hayward has announced that he will be a candidate for the nomination for state treasurer at the next Republican convention. He believes that he will land the nomination.

MANY PEARLS IN ONE SHELL

La Crosse Man Finds Two Dozen Valuable, but One is Worth \$100.

La Crosse, Wis., July 27.—While a party of LaCrosse business men were fishing near Spring Clough, a few miles south of the city, Otto Goetze picked up a clam shell on the bank. He opened the shell and was dumfounded to find a number of pearls inside. They numbered twenty-five, and were of indifferent value, with the exception of one, which is said to be worth \$100. This is said to be an unprecedented find.

Mrs. Guernsey, of Dubuque, Ia., is the guest of Mrs. Fred Van de Water of 206 Ravine street.

ACTION TO WIPE OUT TUBERCULOSIS; KOCH HAS CONQUERED MALARIA

Tells British Doctors That Mosquitoes and Gnats Inoculate the Germs—No Quinine Needed.

London, July 27.—Dr. Robert Koch stirred another large audience of scientists and doctors today at the health congress held at Eastbourne by publicly reiterating his theory that malaria does not emanate from swamps or damp environs, but was caused by the inoculation of mosquitoes and gnats and that the disease could easily be stamped out.

Dr. Koch related in detail his experiments in the Dutch East Indies and German East Africa, where he spent the most of last year on a mission of the German government to inquire into the cause of malaria. He described the results obtained by inoculating orang-outangs in Sumatra and Java and his experiments with natives in German East Africa. In all instances he found malaria was the immediate result of these inoculations. He said further that malarial parasites could be stamped out without quinine treatment.

At the final meeting of the congress on tuberculosis, held today under the presidency of Lord Derby, resolutions were adopted in favor of legislation toward suppression of expectoration in public places and recommending the notification of the proper authorities in cases of phthisis and the use of pocket spittoons, asserting that the use of these sanitary provisions were indispensable in order to diminish tuberculosis. A resolution was adopted expressing the opinion of the congress that health officers should continue every effort to prevent the spread of tuberculosis through meat and milk and as that doubts concerning human immunity from bovine tuberculosis raised by Dr. Koch were of vital importance to the public health and the agricultural interests of the country the government should immediately institute a rigid inquiry into the identity of human and bovine tuberculosis.

LOWERS WORLD'S TROTTER MARK

Cresceus Clips Half Second from the Abbott's Time of 2:03 1-4.

MARK IS NOW 2:02 3-4

Great Son of Robert McGregor or Trots Mile with Ease at Cleveland.

2-MINUTE TIME NEAR

Cleveland, O., July 27.—Amid the enthusiastic cheers of nearly 10,000 people, Cresceus, the world's champion trotting stallion, again demonstrated that he is the peer of all trotters by going a mile yesterday afternoon over the Glenville track in 2:02 3/4 which establishes a new world's trotting record for both sexes, replacing the former world's record of 2:03 1/4, held by The Abbott.

Track Conditions Unfavorable

Even then there were few horsemen that looked for a mile better than 2:05. After having been given several preliminary miles, George Ketcham came out with the stallion to attempt what seemed an impossible feat. Ketcham nodded for the word on the third score, the horse trotting like a machine.

Accompanied by a runner, the chestnut stallion fairly flew to the quarter, the timers' watches registering just thirty seconds.

As Cresceus swung into the back stretch he was joined by a second runner, and although many predicted that the footing was such as would retard his speed he reached the half in 1:01. As the time was hung out the immense crowd broke into cheers, as it was evident that the mile would be a fast one.

The three quarters pole was reached in 1:31 1/4, and as the great stallion trotted into the stretch, a runner on either side, his frictionless machine like stride was fairly eating up the distance.

Mile Without a Skip

Never once faltering, notwithstanding the terrific clip, he fairly flew to the wire, being sustained only by his indomitable courage and almost human intelligence, not being touched once by the whip, his sole urging being the drivers' voice and the thundering hoof beats of the accompanying runners.

As the time for the mile was announced, 2:02 3/4, and the immense crowd realized that a new world's record had been established, Ketcham and his favorite stallion were tendered an ovation such as has been seldom witnessed on a race track and Ketcham was lifted from the sulky and carried to the grand stand on the shoulders of his admirers. Cheer after cheer rent the air, and the name of Cresceus was on the lips of everyone present.

"Ketcham! Ketcham!" yelled the crowd, and the owner of the sturdy son of Robert McGregor was almost carried to the judges' stand, where he delivered a brief address.

Stallion Now Holds All Records

Cresceus now not only world's trotting record for both sexes, but last week at the Detroit grand circuit meeting, by trotting in 2:06 3/4 and 2:05 in his race against Charley Herr, secured the world's record mile in 2:05, also a new world's record for the fastest mile ever trotted in a race and the fastest record heat ever trotted.

It is said by prominent horsemen that G. H. Ketcham deserves much credit for the remarkable achievements of the horse as he has the proud distinction of not only owning the world's champion driver, but also having bred him and driven him in all of his races.

The former trotting queen, Mand S., made her record of 2:08 3/4 to a high-wheeled sulky over this famous course, which time has never been equaled to a similar hitch.

Since that numerous minor records have been established and last September Cresceus trotted the world's stallion record of 2:04 over this track.

Just Between Ourselves

She was a maiden demure, but she had her best young man solid. He used to buy her ice cream sodas twice a week and keep her in chewing gum between times but he doesn't do it any more and therein lies the whyness of this story. She worked him to a finish even to the extent of a gleaming diamond ring which flashed forth rainbow gleams of light every time she moved her lily white left hand, which was often. He loved her fondly, but not blindly, and so when she went to Oshkosh to visit, he wrote to a young man friend of his, asking him to call on her and make her visit pleasant for her but to keep his wise eye open.

The Oshkosh friend followed the advice to a letter. He called on the young lady, she smiled on him, and it must have been for his own sake for somehow or other he forgot to mention that he even so much as knew her Janesville sweetheart. After the first call meetings were frequent and the young couple had a delightful time although strangely enough the young man continued to forget to mention his friend in Janesville. Perhaps this was due to the fact that most of his time was devoted to laying siege to the young woman's heart. He declared himself to be deeply, madly in love, and in such a frame of mind perhaps it was but natural that he should view the sparkling diamond ring with suspicion. Finally he asked her where she got it and was astonished by her frank reply to the effect that a lobster down at Janesville gave it to her.

In due time the maiden returned home and was amazed and annoyed by the non-appearance of her lover on the scene. But she was to have greater reason for both amazement and annoyance, for one day a uniformed policeman called at her home and confronted her with official papers demanding the return of the ring. She complied with the order but a few friends who are on the inside of the story say that unto this day she does not know the reason of her lover's sudden and strange coolness. Perhaps she will understand when she knows that he and her Oshkosh admirer are confidential cronies and when she further recalls what she said about the donor of her ring. Uncle Sam's postal service is swift and sure and he carries faithfully the messages from one friend to another.

No man likes to be called a lobster by a maiden on whom he has showered ice cream sodas and diamond rings and perhaps it is only natural that he should try to recover his expenditure as far as possible. It is a matter for sincere regret that the stern arm of the law is powerless where ice cream sodas and chewing gum are concerned. No maiden, as she prizes her diamond ring, should call the young man, whose hard coin it represents, a lobster, even as a girlish prank, for some people fail to understand and appreciate girlish pranks. The young lady in question will doubtless be wiser for her little experience but it is safe to say that the Oshkosh young man's valuation will sink considerably below par when she learns the truth. Things have come to a pretty pass in this old world of ours if a young woman cannot indulge in a little flirtation, which has been the summer girl's acknowledged right for ages immemorial, without forfeiting her steady rush and accompanying pleasures at home. The Oshkosh young man may have succeeded in proving his disinterested friendship for his chum in this city but it is safe to affirm that his methods are not the kind to make him popular with the fair sex. A man who makes love need not necessarily be in earnest, these days, but he should hold his tongue.

I have before me a clipping which is very enticing and so I pass it on for what it is worth. The clipping says that clover cushions are a fad of the hour and that the very thought of their dainty perfume will woo any tired mortal to dreaming of "the winds which tell of the violet's birth." The article goes on to say that the clover blooms must be carefully dried in the shade and turned frequently so that every part will be exposed to the air each day. The tempting promise is held forth that one or two of these cushions among a collection of pillows for a divan will permeate the atmosphere with a lingering fragrance. The covers for clover cushions are varied and novel but one of the prettiest is said to be of white pique with scattered bunches of clover worked upon it.

This all sounds deliciously refreshing and tempting and I presume it is all true but I am not sponsor for it and if you try it only to be rewarded by a humpy, musty smelling cushion don't blame me for it. For myself, I have never had much faith in printed recipes, enthusiastically worded since the time when long years ago, three tanned and freckled school girls read of the magical effects to be produced on the complexion by bathing the hands and face daily for three days in watermelon juice. The result was to be a skin of peachy creaminess, that exquisite combination of alabaster smoothness and dainty rose-like flush that is never met with outside the pages of the novel, but alas, although they tried the magic lotion faithfully, three unhappy imps of school girls not only continued as black as crows, but their faces and hands broke out in great red blotches. I am not saying who those ambitious school girls were, but since that time complexion cures have had little charm for me. There is such a thing as leaving a bad matter alone. The experience has also made me suspicious of many of the alluring things which I see in print and consequently I say if your clover cushion is a delight and a joy forever give me your gratitude for the tip but if it is a dismal failure, then hold me blameless.

There seems to be no length to which the practical joker will not go. A woman in an Illinois city is among the latest victims of one of this peculiar people who calls Janesville home. A short time ago this lady received a letter saying that her niece in this city was dangerously ill and that she had better come and care for her at once. The lady replied to the neighbor from whom the letter claimed to be saying that it would be impossible for her to come unless it was absolutely necessary. In answer to this she received a message from the same person, who claimed to be a Mrs. Green, saying that her niece had black diphtheria in the worst form and that she must come at once. As the niece has no mother the aunt hesitated no longer but telegraphed to the girl's father that she would be in Janesville on the afternoon train. Then she went to her family physician, told him that she was going into a malignant case of black diphtheria, and bought about \$10 worth of disinfectants and other medicines. When she arrived in this city she nearly fainted away, for her niece, alive and well, met her at the depot. The greetings which followed were strange ones and the niece could throw no light on the mysterious summons. Some people may see the humor in inducing a woman in moderate circumstances to spend money and time which she could ill afford to spare in coming on a wild goose chase, to say nothing of the mental suffering which she endured, but the point of the joke is beyond ordinary intelligence. L. F. B.

Tobacco Notes.

A new industry has lately developed in the methods of handling low grades of leaf tobacco in this part of the state.

It is known as stemming and kooking. The process has been carried on for some years by S. B. Heddles but it is only this season that it has been taken up by the other dealers and made a feature of.

Most of the tobacco for export trade is stemmed and made into what is known in the tobacco trade as books. The stem and trash are

Has received the highest endorsement from the medical profession, the nurse and the intelligent housekeeper and caterer.

WALTER BAKER & CO. Limited

Established 1780

DORCHESTER, MASS.

taken out and only that which can be used is left for packing.

In the lowest grades which are used principally in this country for smoking and other forms of manufactured tobacco where whole leaves are not necessary, the stems are taken out and the leaves straightened out and packed in cases, and later packed in gunny sacks for shipment.

Packing the tobacco in gunny sacks is also a new feature of the trade and does away with the heavy cases and lessens the freight very materially.

This new system of handling the tobacco makes a market for the large quantity of hail cut and damaged leaves in the last year's crop. All the cheaper grades have been picked up by the local dealers for this trade and more could be used by many of them if it could be secured. At present there are about 250 hands employed in the different warehouses in the city at this work. They cannot make quite as much at this work as they can at sorting but a good lively girl or boy can make \$1 per day. Millard Calkins has about forty hands at work booking and stemming. S. B. Heddles has sixty at his Spring Brook warehouse, C. L. Culton 105 at the Marquette warehouse, and seventy-five at T. E. Welch's warehouse.

There will be at least three hundred hands at work at this new industry next week, with work enough in sight to last for months.

C. L. Culton now has in operation two warehouses at Janesville, one at Broadhead, three at Edgerton, one at Whitewater, one at Milton Junction and one at Fort Atkinson, doing this work.

A. S. Flagg of Edgerton, one of the largest tobacco buyers in the state is at the Hotel Pfister, says the Mil-

waukee Free Press. In reference to the tobacco crop he said: "The hot, dry weather has cut the crop down like everything. If copious rains come immediately it may save the medium and later set tobacco, but even if it does this it will take lots of rain to save the quality of the crop. The quality, however, at best, will not be as good as if the weather had been favorable all season. If we don't get rains it will only be a filler crop. The loss in my opinion to the tobacco growers in Wisconsin will be at least \$1,000,000. In the first place, owing to unfavorable weather conditions, the growers did not get more than three-fourths of a set, reducing the acreage; but I do not look for an increase in the price of the crop by reason of its shortage, because the crops will be inferior in quality. The price, however, of the 1900 crop, which was excellent in quality, may be increased."

Some of the farmers are setting tobacco since the rain in the hope that they may reap some benefit from their efforts. The plants are large and in fine condition but the general opinion is that it is useless to set plants so late in the season. A few of the growers think the experiment worth trying, however.

We have entered now upon the fourth week of a prolonged drouth accompanied by a season of the most intense heat ever experienced in this latitude. The growing crop, which for some weeks been suffering from the drouth has now reached a point where it is tediously being consumed by each day's burning heat. We have seasons of drouth before during the growing season of the tobacco crop, and instances where three or four weeks have elapsed without rain and still a fairly good crop obtained. It is the long continued burning heat that is shriveling up all vegetation. The early fields—those that were well started before the drouth—do not stand as good a chance now of making a crop as that later transplanted. Where the plants have reached the height of a foot or so they have been forced to a bud without any breadth of leaf and can hardly be expected to yield much should rains come now. A good portion of the medium set fields are still living and have stood up surprisingly under the trying weather, but the under leaves begin to curl up and wither showing plainly that they cannot much longer survive the intense heat. Should rain come soon the only hope of securing a fraction of a crop lies in this portion of the planting. If the present conditions continue another week it can be written down that the crop of 1901 in the great tobacco belt of the state will be a complete failure. At this writing the growers of Wisconsin are facing the most discouraging prospect that has ever confronted them.

The chronological oracle of this locality, whose name is Frank Westcott, and whose residence is at Albion, concedes that the past few weeks' drouth has been pretty trying on growing crops, but says: "We raised a tobacco crop in '94 without a drop of water on any portion of it. That season when the crop was transplanted the ground was well loaded with moisture, sufficient to carry the crop through. Some fields of tobacco that year never had a drop of rain fall on them from the time the plants were set in the fields until harvested and securely housed in the shed, and we had tobacco that year, too. There wasn't much binder stock in the crop, to be sure, but it made some excellent 'B' leaf just the same." It is not so many years ago this happened. Growers can think back and remember the situation he describes. The drouth came then at the other end of the season and not at the commencement as this year.—Edgerton Reporter.

Store Entered by Burglars.

The store of John Davis at Center was entered Thursday noon by some unknown party, and \$100 which was in the till, carried off. Mr. Davis was away from home on that day, and left the store in charge of his son. During the morning a customer called at the store and paid a good sized account. This with the other money in the drawer amounted to about \$100. At noon when young Davis went to dinner he locked the front door to the store and left the rear one unlocked. During his absence some one entered the store and carried off the money. Constable Wells of Footville, was in the city yesterday, looking for a stranger that was in the store during the morning, and saw the money paid to Davis by the customer. He left a good description of the man with the local officers.

Electric Roads at Elkhorn.

The electric road question has been the chief topic of conversation in Elkhorn the past week. The advantages and disadvantages of such a project have been discussed in all their phases, and while it is not the first time that Elkhorn people have had occasion to take up matters of this nature, it is doubtful if anything has aroused more interest at the outset than this. Regarding the discussion the Independent says: The fact cannot be denied that a large proportion of the people desire an electric railroad. The majority are of the opinion that a line would be of great benefit to the city, and that a franchise should be granted, providing the city can have sufficient assurance that the line will be built. For the purpose of getting an expression from the people Mayor Pierce called a meeting Monday evening. Out of about twenty who spoke on the subject three were opposed to the project. Prior to the adjournment of the meeting a vote was taken to ascertain how many were in favor of giving the company a franchise. This resulted in fifty in favor of such action, and seven against.

Genuine Rocky Mountain Tea is never sold in bulk by peddlers or less than 35 cts. Don't be fooled, get the tea made famous by the Madison Medicine Co. Smith's Pharmacy.

WILL FREEZE OUT POPULISM

Republicans Are Preparing to Organize Clubs to Preserve the Party.—Statement About Aug. 1.

The republicans who are preparing to organize clubs to preserve the party and free it from populism in this state this fall will, about August 1, issue a statement broadly defining the plans and purposes of the organization.

Several leading men are at present time engaged in trying their hands at writing a statement. All are confining themselves to one principal idea, which is to harmonize as much as possible all factions in the party, and not to offend any faction. The organization may be called stalwart by the general public, but there will be men in it who have been known as half-breeds and who have supported R. M. LaFollette.

There will be no plugged keyholes in the quarters of the organization on the eleventh floor of the Herman block, and no man will be obliged to furnish a political pedigree to gain access to the "front room."

The party is to be reorganized, and if populism is squeezed out, the process will be through candid, cool, and earnest denunciation in the statement to be published in a few days. The misguided and mistaken will be asked to return, and there will be nothing to indicate that one Republican's opinions are not as good as another's.

But a populist will find it difficult to get into the councils of the New Republican party in Wisconsin. Only republicans will be at the helm.—W. F. Hooker, Chicago Inter Ocean.

HAD AN OUTING ON MADELINE ISLAND

Misses Kittie Shields, Anna Shields and Hattie Dowling have returned from a delightful outing at Madeline Island, a fairy land where grate fires were essential to comfort in the evening and heavy covering was necessary on the beds. This island, just north of Ashland, in Lake Superior, is of special interest to people of this vicinity, because a mission was founded there many years ago by Mr. and Mrs. Wheeler of Beloit, and because Charles B. Salmon of Beloit, now conducts a resort on the scene of the old mission. This resort has a unique object, that of helping poor young men and women who are attending college and who find employment at the hotel which Mr. Salmon conducts on Madeline Island largely for the purpose of giving these worthy young people a pleasant outing during the summer and making it possible for them to be earning money at the same time.

NEW 150 HORSE POWER ENGINE

The plant of the Janesville Electric company will soon be improved by the addition of a new 150 horse power engine and generator.

The new engine and generator will give them a large reserve power and also increase the capacity of the plant. They will be used principally in conjunction with the incandescent system and for furnishing power.

With these improvements the plant will be the equal of any of its size in the country. The engine is being built by the Ball Engine Co., of Erie, Pa., and the dynamo by the General Electric company of Schenectady, N. Y., and will be ready for work by October 1.

New Parlor Cars.

Two parlor cars, named respectively "Janesville" and "Beloit," "spick and span new" from the builders have been received from the Chicago, Milwaukee & St. Paul Railway and will be placed at once in the service for which they were expressly built—between Chicago, Janesville and Madison.

The new cars have an interior finish of mahogany and are seventy-five feet in length. The exterior is the St. Paul standard color. In addition to the usual parlor, seating thirty people, each has a large observation room, a state room and buffet. The latter, besides being fitted for ordinary buffet service, is equipped with a broiler, from which steaks, chops, etc., can be served.

The equipment in service on the St. Paul road to and from Southern Wisconsin points has received many favorable comments. The new cars—the handsomest so far built—will complete the finest day trains leaving Chicago.

Every Exertion a Task Every Care a Burden

There is failure of the strength to do and the power to endure; there is weakness "all over" that is persistent and constant.

The vital functions are impaired, food does not nourish, and the whole system is run down.

A medicine that strengthens the stomach, perfects digestion, invigorates and tones is needed.

What Hood's Sarsaparilla did for Mrs. L. B. Garland, Shady, Tenn., it has done for others. She took it when she was all run down—without appetite, losing flesh, and unable to do her work. It restored her appetite, increased her weight, and made her well and strong. This is her own unsolicited statement.

Hood's Sarsaparilla

Promises to cure and keeps the promise. The earlier treatment is begun the better—begin it today.

A Curious Case of Retribution and Justice in This City—Check Mate a Business Man.

Recently a curious case of retribution and justice occurred in this city, and it has caused considerable amusement by the few who were on the inside and knew the facts of the case. There is somewhere in the business heart of this city, a manufacturing firm which among other things does machine. Once in a while traction engines are brought to the machine shops for repairs and being too large to be taken into the building they are always left out in the street while the work on them is being done. The shop is not in one of the busiest parts of the city and the street in front of it is comparatively little used so that the engines are not particularly in the way.

Nevertheless their presence in the street was construed into a grievance by a business man who happens to reside in the neighborhood of the shop. Consequently not many days ago when two traction engines were left in front of the shop for repairs, he swore out warrants for their owners. When the warrants came to be served, the owners of the engines had returned to their homes in the country and a member of the manufacturing firm represented them and paid the cost of the affair.

Now comes the real point of this story for while the man who had caused the arrests was chuckling in his sleeve over the trouble he had caused the laugh was turned on him. The officer who had served the warrants, while in the act of doing his duty, glanced down the street and saw a shed and an outbuilding standing partly out in the street. He inquired to whom the buildings belonged and was informed that they were the property of the man who objected to the traction engines standing in the street. Forthwith the officer secured another warrant which he served on the man who had caused the trouble in the first place. And so it came about that the arrestee was arrested, paid a neat little sum as costs and was forced to take a dose of his own medicine.

Mary Kimball mission of 106 South Jackson street. Preaching at 7:45 p. m. Subject: "The Mystery of Peace." Meetings Wednesday Thursday and Friday evenings. Everybody welcome.

The Kind You Have Always Bought

Bears the Signature of *Chas. H. Fletcher*

Cure for Cholera Infantum—Never Known to Fail.

During last May an infant child of our neighbor was suffering from

cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curits Baker, Bookwalter, Ohio. For sale at King's pharmacy and People's Drug store.

A TRYING POSITION

Janesville Readers Will Appreciate This Advice.

A constant itching tries your patience. Nothing so annoying. Nothing so irritating as itching piles or eczema. To scratch the irritation makes it worse. To leave it alone means misery. Some citizens cannot tell you how to be free from these troubles. Read the following:
Mr. L. Lawrence, of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says: "I tried about everything recommended for itchiness of the skin, but found nothing to give me relief until I struck Doan's Ointment at the People's drug store. I had an affection of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and shaved it so I could hardly stand shaving. A few applications of Doan's Ointment removed the itchiness and healed my face in a few days. I would not be without this remedy in my house, and I certainly recommend it to others in need of such a preparation."
Sold for 50 cents per box by all dealers. Foster-McIlhenn (N. Y. Buffalo, N. Y.) sole agents for the U. S. Also on sale at King's Pharmacy.
Remember the name, "Doan's," and take no other.

HERO OF RECENT WARS IS IN TOWN

CHARLES FLANAGAN FOUGHT AT SANTIAGO AND TIEN TSIN.

Was a Machinist On the Battleship Indiana and Saw Three Years of Service—Was Wounded in the Battle of Tien Tsin—His Opinion of the Sampson-Schley Controversy.

Charles Flanagan, a machinist who served for three years on the battleship Indiana and who was in the battles of Santiago and Tien Tsin and was wounded during the latter battle, is in the city and intends to reside here in the future. He has secured employment with the New Doty Manufacturing company.

Mr. Flanagan first saw active service on the battleship Indiana which took a prominent part in the battle of Santiago. Later he was detached from his ship and sent to fight with the troops in the Orient, landing just in time to take an active part in the great Chinese battle of Tien Tsin. His detachment was in China but one day and was then ordered back to San Francisco but Mr. Flanagan had been there long enough to receive a rifle shot wound, the only accident which he suffered in either of these large engagements.

Mr. Flanagan has many exciting and interesting experiences to relate and it is a pleasure to listen to his adventures. Regarding the Sampson-Schley controversy he said that he sympathized with the common soldiers who are at sea with Schley who is a hero and a gentleman in their estimation while they consider Sampson not much more than a tin-horn soldier. He says the maneuver which Schley made with the Brooklyn and which has been made the foundation of the story that Schley tried to run away, was a necessary maneuver to keep the Brooklyn from ramming the other ships in the United States fleet.

Mr. Flanagan's discharge from service is dated to take effect on August 1, but because he had taken no furlough since his enlistment he was given an earlier release from duty with salary up to the time specified in his discharge.

WATER COMPANY RAISES OBJECTION

Say That \$200,000 is Too High a Tax Figure For Them—May Be Investigated.

The Janesville Water Company through its attorneys, Edward H. Hyzer, of Milwaukee and William G. Wheeler, of this city, have made application to the board of review to have their assessment reduced. The assessors fixed the taxable valuation of the plant at \$200,000 and it is to have this value reduced that W. G. Wheeler and Edward M. Hyzer appeared before the board of review this morning and stated their reasons why the assessed valuation should be reduced.

The board of review convened at 10:30 o'clock and from then until 12:30 the time was taken up with the arguments of Messrs. Hyzer and Wheeler. The board then adjourned until 2 o'clock when further argument was taken by the attorneys. City attorney Burpee looked out for the city's interests from a legal standpoint.

LITHIA SPRINGS PROMOTERS HERE

A Large Amount of Stock Already Subscribed for in This City and Chicago.

The committee in charge of the stock subscription list for the Burr Lithia Springs company are making a canvass of the city today, soliciting the sale of stock for the enterprise. They have already met with fair success and have succeeded in placing quite a block of shares. The subscription blanks can be found at all of the banks.

There is no question but that the stock will all be taken. Over 5,000 shares were placed yesterday in a short time by the promoters, with Chicago capitalists.

Messrs. Tucker and Wachsmuth of Chicago are in the city today attending to some of the details necessary to get the company properly started.

Soon Ready to Receive Crops.

P. Hohenadel, Jr., has a large force of men working night and day on the canning factory, in order that it may be ready for the first load of produce that is delivered at the works. A few days more will see the works in shape to commence business. The produce contracted for can then be run in as fast as it is ready.

Although the extreme dry weather has injured the crops to a great extent Mr. Hohenadel expects there will be at least half the produce contracted for delivered at the plant. The company have a large farm of their own at Onalaska, Wis., and have also considerable acreage contracted for in that vicinity. All this produce was to have been handled at Prairie du Chien, but since the destruction of that plant by fire it has been decided by the company to ship all their produce here and work it up at this factory.

They have about 160 acres of cabbage in one piece at Onalaska which will be sent here and made into "kraut," and great quantities of other truck which can be shipped here. This, with what can be secured here, will keep the factory in operation for the full time.

The heavy rain Wednesday helped out the garden truck wonderfully and they expect considerable acreage from here.

Frank Van Wart of Beloit was a visitor to this city today.

NEWS OF THE CITY

Free lunch tonight at Podewell's new place at No. 5, North Academy street.

Grand opening Ray Podewell's saloon, No. 5, N. Academy St., Saturday night.

Free lunch tonight at Podewell's new place at No. 5, North Academy street.

The C. & N. W. Railway will run an excursion to Oshkosh on Sunday, Aug. 11. Fare, \$1.50 round trip.

Fresh cut carnations and roses; flowers of all kinds procured on short notice. Linn Street Green House.

We close out all perishable goods on Saturday night. W. W. Nash.

Good goods, fresh goods and right prices. W. W. Nash.

Men's balbriggan 50-cent undershirts and drawers go Monday at 25 cents each at Bort, Bailey & Co.

Fels' Naptha soap saves time, fuel and nerves. W. W. Nash.

Band, free lunch and a jolly good time at grand opening of Ray Podewell's Germania hotel, No. 5 North Academy street, this evening.

Don't blame us for the bummiest telephone system in the world. W. W. Nash.

Fifty cent men's undershirts and drawers will be placed on sale Monday at Bort, Bailey & Co's. store at 25 cents each.

Ogden H. Fethers returned home last evening from an extended eastern trip, including the Pan-American exposition at Buffalo.

Men's balbriggan 50-cent undershirts and drawers go Monday at 25 cents each at Bort, Bailey & Co.

Wanted—waist and skirt hands, also finishers. Instructions given beginners. Factory thoroughly cooled by fans. Work steady. Isabel Mfg Co.

Two badly wrecked wheels was the result of a collision between male and female bicycle riders on Court street yesterday noon. The riders escaped without serious injury.

The Y. P. S. of Trinity church will hold a special meeting in the Guild hall Thursday evening, August 1, at 8 o'clock sharp. N. A. Drummond, Pres.

At a meeting of the board of review yesterday the assessment of the New Gas Light Company was reduced from \$225,000 as fixed by the assessors to \$200,000.

This evening at Ray Podewell's opening at No. 5 North Academy street there will be good music as well as a most tempting free lunch.

The alarm of fire at 5 o'clock last evening was caused by a telephone message stating that the People's Ice house was on fire. The department found that it was grass along the railroad tracks which had caught on fire.

A young son of Judge Henry C. Smith fell from a horse he was riding at the Woodruff farm Thursday and dislocated his elbow. His uncle, George Woodruff succeeded in getting the joint back in place before the arrival of the doctor.

Supt. H. C. Buell, who has been in this city for the past three weeks as one of the conductors of the Rock County teachers' institute which has been in session at the high school building, will assist in conducting an institute in Monroe for the next two weeks. At the close of the Monroe institute Prof. Buell will move his family from Whitewater to this city.

Mrs. Buell and daughter are now attending the Monona Lake assembly. Christ Church—Eighty Sunday after Trinity. Celebration of the Holy Communion at 8:00 a. m. Morning service and sermon at 10:30 a. m.

Miss Mae Rider has returned to her home in Minneapolis after a two weeks' visit with relatives and friends.

Sheriff Maltress did not take Bundy to the reformatory yesterday as it is the custom of the state to send after prisoners for this institution. This morning he received a telegram from C. W. Bowron, the superintendent, to bring him up.

He left at 12:45 today for Green Bay with his charge.

The Janesville Machine Co. has secured the western right to manufacture a novel appliance in the Hallock weeder and cultivator. It will do four times the work of a common cultivator in one day. As a dry season surface cultivator is unexcelled. It is a wide firm appliance with flexible teeth and can be run through a field of corn without damage to the plants.

Dr. Frank Keller, of Sioux Falls, S. D., a former partner of Dr. E. D. D. Roberts, Dr. Keller since leaving days as the guest of Dr. and Mrs. E. D. Roberts. Dr. Keller since leaving here has dropped the veterinary practice and taken a course in medicine.

He is now county physician at Sioux Falls and has also been the physician at the state prison, and at the deaf and dumb asylum. Before returning home he will go to Chicago and take a post graduate course.

OPEN WINDOW CLUB IS IN CAMP

YOUNG FOLKS ARE ENJOYING AN OUTING AT IDLEWYLE.

Members of the Club Gave Entertainment to Pay Camping Expenses—Could Not Afford to Buy Potatoes at Prevailing Prices and Make Contract That Girls are to Dig Them.

Several members of the Open Window club, an organization of young girls, are in camp at Idlewyle park, chaperoned by Mrs. W. B. Stoddard.

The outing is all the more enjoyable because the expenses are defrayed by money earned by the young ladies of the club. During the early part of the summer they gave a series of literary and musical entertainments at the homes of members of the club, to which they charged a small admission fee. These entertainments were quite successful and the result was a neat little sum in the treasury.

An amusing little story is told in connection with the preparations for the outing. The committee which went down to buy provisions was startled at being told that potatoes were \$1.40 a bushel and went home saying sadly that they could not afford to buy potatoes at that price.

The father of one of the girls told them that he would sell them a bushel for 50 cents if they would dig them themselves. He meant it for a joke but the girls accepted the proposition and one evening two of them got ready to dig the potatoes. Then the father came to the rescue and told the girls that with the ground as hard as a rock they could not possibly accomplish the task. As long as they were getting ready for their outing on business principles he would dig the potatoes for twenty-five cents extra. The girls were willing and the father says laughingly that he earned his money for it took him over two hours to dig enough of the appetizing tubers to fill his order.

Two Boys Drowned While in Bathing.

One Victim Was Allen Russ Harris, Nephew of Mrs. Wm. Eller and Mrs. Fred Davies, of This City.

Mrs. William E. Eller, of 182 Linn street, this morning received the sad news of the death by drowning of her nephew, Allen Russ Harris, at Wahpeton, North Dakota. The family were camping at Stewart Lake. Allen together with a comrade, went in bathing. The latter went beyond his depth and Allen dove after him and both young men were drowned.

Allen Harris was seventeen years of age and was an unusually bright and lovable boy. He was to have graduated next year at the high school at Wahpeton. He was president of his class and was also a member of the Christian Endeavor at Wahpeton. He with his mother and sister visited in Janesville last winter. Mrs. Harris, mother of Allen, is a sister of Mrs. Eller and Mrs. Fred Davies, of this city.

Kelly Wins With Charley Herr.

Takes the 2:07 Trot at Cleveland, O., Last Thursday—Horse is Making a Good Record.

At Cleveland, Ohio, Thursday, John Kelly won the race for 2:07 trotters with Charley Herr for \$2,500.

The impressive manner in which Herr displayed of the great campaigners "Kingdom" and "The Monk" shows that he is rapidly getting in form and may soon prove himself a worthy rival of Cresceus, the reigning king.

Mr. Kelly's many friends in this city will be pleased to know of his victory and that he is winning laurels as well as money with the horses.

LOCAL MILKMEN ARE UNDER ARREST

J. J. Russell and T. J. Anderson Complain of by Assistant Dairy and Food Commissioner Sweeting

J. J. Russell and T. J. Anderson, two local milk dealers were arrested last night by Under-Sheriff Wallace Cochran on a warrant sworn out by C. W. Sweeting, assistant dairy and food commissioner, charging them with selling to him on July 10 for pure, wholesome unadulterated milk, certain unmerchantable, adulterated, impure and unwholesome milk. The defendants appeared before the municipal court this morning and pleaded not guilty to the charge. Their cases were adjourned until August 7th at 10 o'clock a. m.

It seems that charges had been made to the state dairy and food commissioner at Madison that certain milk dealers in this city were selling milk that was far below the standard required by law. On July 10 his deputy Sweeting came to Janesville and purchased milk from all of the dealers, of which there are twenty-two in the city. He took the name of every dealer that he bought of and had the samples sent to Madison where they were tested.

The milk purchased by him from Anderson and Russell was found to be far below the test and he swore out a warrant for their arrest.

The outcome of the case will be watched with interest by the other dealers in the city.

One entire case of balbriggan undershirts and drawers will be placed on sale at Bort, Bailey & Co's. store on Monday at 25 cents each. These undershirts are regular 50 cent garments.

NEWS OF A PERSONAL NATURE

Edward Connell is home from Milwaukee.

C. A. Phelps, of New Orleans, was in the city today.

Mrs. F. W. Coon of Edgerton was a visitor to this city today.

Cor. Jackson and Milwaukee Sts. DRUGGISTS

STATE VS. MURRAY DISMISSED TODAY

For Lack of Evidence the Prisoner Was Discharged on Motion of District Attorney Jackson

Joe Murray, one of the men arrested in Beloit some time ago for assisting in the robbery of Dick Hogan, at that place, was this morning discharged by Judge Sale, acting municipal judge, when he came up for trial. When the case was called District Attorney Jackson announced to the court that he would enter a "nolle" against Murray, who was immediately discharged by the court. Testimony implicating Murray in the hold-up could not be secured and for this reason, the district attorney decided to drop the case.

After he was discharged Murray wanted to know if the state gave him transportation back to Beloit. He was told that the state had paid his way from Beloit here and that ought to be all that he could ask. He was satisfied to be discharged so did not make much of a kick for transportation.

OLDEST HORSE IN THE CITY KILLED

Aged Thirty-eight Years—The Property of J. T. Waggoner—Was Once in Circus Business.

What is supposed to be the oldest horse in the city has been killed at the age of 38 years. The animal was the property of J. T. Waggoner and was purchased by him from F. F. Lewis. As the result of advanced years the horse was killed to relieve it of further suffering. The horse was cream colored and years ago was performing in a circus.

Cheap Trip to Crystal Springs

Beauty is Health.

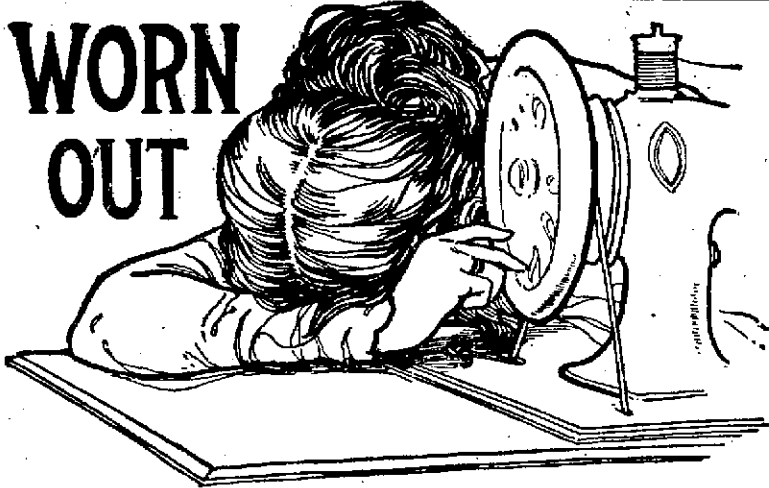

Walnut Lake, Ark., June 8, 1900.
I thank you for the benefit received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.
Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Worn faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb? Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chas. H. Chas. Co., Chas. H. Chas. Co., Tenn.

Pale Weak, Run-down Overworked Women
half sick, nervous, tired out with household and maternal cares, constipated, liver torpid, with blotched, mummy, sallow complexions, blood thin and impure, need building up and a thorough renovation of their systems. This is the time you need such a great nerve and stomach builder as

LAXAKOLA

the great tonic laxative. It gently moves the bowels and thus removes the cause, and acts directly upon the liver and kidneys, keeping them active and strong, while its marvellous tonic properties clear the complexion, stimulate the liver, quickens the circulation, increases the flesh, brightens the eye; the nervousness speedily disappears, and the entire system recuperates and tones up to a condition of perfect and permanent health.

Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, etc., and, or, free sample of THE LAXAKOLA CO., 124 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

LAXAKOLA FOR CHILDREN

Give the children Laxakola. It is absolutely safe, being purely vegetable, containing nothing of a harmful character. It builds the little ones up instead of debilitating them. It reaches every organ, cleanses and strengthens the liver and kidneys, purifies the blood and makes them hearty and strong. It tastes good. Children like it and ask for it.

Trade supplied by King's Pharmacy and People's Drug Store.

A Cheap Trip to California

Personally conducted homeseekers' excursions to California. August 6 and 20, September 3 and 17; only one fare plus \$2.00 round trip. Through tourist sleepers and chair cars. California is an open door of opportunity for the hustler. Visit Grand Canyon of Arizona en route.

THREE SHOT IN COURTROOM

Lawyers at Clarksville, Tenn., Carry on Argument with Revolvers.

FIFTEEN SHOTS ARE FIRED.

One Man Saves His Son and Receives the Bullet in His Own Body—Ten Bullet Holes in Walls, Fixtures and Furniture.

Nashville, Tenn., July 27.—A sensational shooting affair, in which four members of the Clarksville bar were concerned, occurred in the chancery courtroom at the Clarksville courthouse. The principals were William Daniel, Jr., and F. G. Gilbert, George Gilbert and William M. Daniel, Sr. Fifteen shots were fired. All of the men, except William Daniel, Sr., were armed and expecting trouble, which was precipitated over a lawsuit in which William Daniel, Jr., and F. G. Gilbert were opposing counsel. The injured: W. M. Daniel, Sr., flesh wound in the throat; W. M. Daniel, Jr., shot in top of the head and left arm; F. G. Gilbert, shot in left arm and right hand. After the trial of the case William Daniel, Jr., and F. G. Gilbert stood at opposite sides of a table. Daniel referred to statements made by Gilbert in the course of the trial. Gilbert reiterated the statement, to which Daniel, Jr., made some reply that caused Gilbert to strike at him with an umbrella. Daniel, Jr., drew a pistol and fired twice at Gilbert. Gilbert returned the fire. In the midst of the fusillade William Daniel, Sr., who was in an adjoining room, hurried forward to prevent further trouble. As he entered the room George Gilbert, a brother of F. G. Gilbert, arose and aimed his pistol at William Daniel, Jr. The elder Daniel grasped his hand and bore the pistol out of line with his son, receiving the shot himself. It is considered almost miraculous that none of the shots was fatal. The walls, chairs and furniture of the room show the marks of ten bullet holes.

Census Bulletin for Indiana.

Washington, July 27.—The census bureau has issued a bulletin showing the school, militia and voting population of the states of Indiana, Iowa and Kansas and Indian territory. Following is a summary of the statement for Indiana: Children of school age, 843,885, of which 10,188 are foreign born, 18,491 colored, 425,219 males and 418,219 females. Males of militia age, 530,515, of which 31,722 are foreign born and 14,365 colored. Males of voting age, 720,206, of which 73,317 are foreign born and 18,445 colored. The tables show that of the voting population of Indiana 5.6 per cent are illiterate; Iowa, 2.7 per cent; Kansas, 3.4 per cent, and Indian territory, 15.9 per cent.

Work on the Aspen Tunnel.

Evansville, Wyo., July 27.—Newspaper men who are making a three days' tour of inspection of the Union Pacific's new line over the mountains visited the Aspen tunnel, by which the road will save twelve miles of mountain climbing and 200 feet of dangerous grade. The tunnel will be 5,923 feet long, twenty-six feet wide, seventeen feet in the clear and have a grade of only twenty-one and a half feet to the mile. It will cost \$1,000,000.

Virginia Passenger Is Lost.

Milwaukee, Wis., July 27.—A man supposed to be C. E. Penick of Sheridan, Iowa, was lost from the Goodrich line steamer Virginia as that vessel moved out of the river at Racine. Penick was accompanied on the trip by H. F. Brown and O. A. Holbrook, stock dealers, also of Sheridan, Iowa. Penick was not missed by his companions until the boat arrived in Milwaukee.

LAY KEEL OF BIG WARSHIP.

Work Is Commenced on the Armored Cruiser Pennsylvania.

Philadelphia, Pa., July 27.—The keel of the armored cruiser Pennsylvania, the first vessel of the new navy to be named after the state in which nearly all the more modern vessels were built, has been laid at the yard of the Cramp Ship and Engine Building company. The cruiser will have a speed second only to the Varig, the Russian cruiser, and the fastest afloat. A sister ship to the Pennsylvania, the armored cruiser Colorado, will be built later by the Cramps. By a recent decision of the navy department the two vessels constructed are to be alike, although at first it was intended that the Pennsylvania, unlike the Colorado, should be sheathed with wood and coppered. Both vessels are armored cruisers, with two nine-inch barbette turrets and two military masts. The general dimensions are: Length on the water line, 502 feet; extreme beam, 69 feet 6 inches, and mean draft, 24 feet 6 inches. The displacement is 13,680 tons.

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the constitution has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by King's pharmacy and People's drug store.

Pere Marquette Route.

Thousands of Wisconsin people are arranging to visit the Pan-American Exposition at Buffalo this summer. The Pere Marquette route, via Milwaukee and Detroit, will be the favorite with many who know of its comfort and attractive features. It is a relief to the traveler to change from the dusty cars to a comfortable steamer for a few hours. Round trip tickets to Buffalo via Milwaukee at excursion rates, with stop-over privileges. Ask your agent or write N. W. Jameson, 21 P. A. 91 Wisconsin street, Milwaukee, Wis., for particulars.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial, for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health has been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. Bear in mind that every bottle is warranted and if it does not prove beneficial the money will be refunded to you. For sale by King's pharmacy and People's Drug Co.

Mamie G. Boyle.

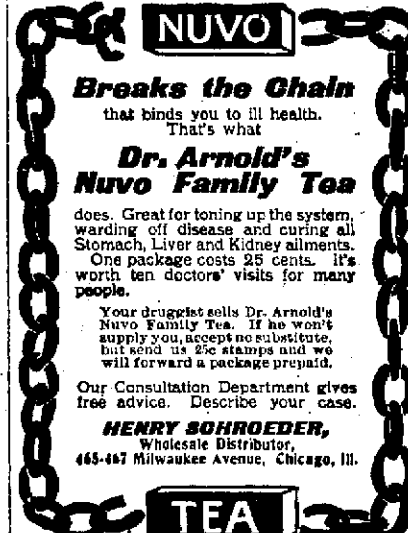

On July 20th, at 2:30 a. m., Mamie G. Boyle, oldest daughter of Owen Boyle, of Lincolnton, passed from this world of care to partake of the joys and blessings of heaven. This loved one was born Nov. 6, 1879, and up to the time of her death a few days ago, was a favorite with all who knew her. About the time her relatives and friends expected to hear her wedding bells ring out, our Lord found need for her in heaven, and called her ther to join his band of angels. Last March, that fatal disease, consumption, crept into the system of this precious one, and though doctors were employed, and all possible medical aid given it was found no earthly power could save her.

July 22, her remains were carried to St. Michael's church, where Father Harlan officiated at mass. The long funeral procession, consisting of 110 teams, gave evidence of how dearly she was loved by all who knew her. She leaves on this earth with sorrowful hearts, a father and a mother, six sisters, Agnes Farrington, of Crawford county, Wis.; Nora Clara, Nellie, Lauretta and Grace Boyle, three brothers, Jimmie, Willie and Eugene Boyle.

The following are the young men who carried her to her last resting place: Foncie Collins, Joseph Reilly and Robert Ford of Porter, John Ryan, Pa. Ryan, Jr., and John Murray of Magnolia.

May her soul rest in peace, and may God send a comforting ray to the hearts of those who are left to mourn her.

CORN RUIN IS WIDENING

The Present Condition Almost a National Disaster.

LITTLE HOPE FROM RAIN.

Spring, Where Conditions Have Changed Materially Within Ten Days in the Northwest, the Force Heat Reducing Crop Results.

Chicago, July 27.—The last twenty-four hours probably have been the most favorable to the states of the corn belt since the existing hot wave began nearly forty days ago. Rains, generally light in amount, have fallen in western Kansas, western Nebraska, southwestern Missouri, central Iowa, Arkansas and a little in Oklahoma, and the prospects seem to be favorable for a continuation of more numerous showers in the section covered by these states and territories. Tomorrow showers are looked for by the weather bureau in northern Illinois and northern Indiana. Still there has been no general rain, of which the crops stand in so much need, and there are no immediate prospects of any. On the whole, the weather bureau officials regard the situation as somewhat improved. Incidental to the rains, the temperatures officially reported yesterday were somewhat lower than on Thursday. However, they ranged from 92 to 100 in the corn belt. Conditions will remain practically the same in the drought section during today and tomorrow, and the weather will continue very hot, with the possibility of relief from scattered thunderstorms. In the Dakotas and in Montana there has not been any rain of importance in the last twenty-four hours, but temperatures have been a little lower. There were good heavy rains Thursday in Wisconsin, in lower Michigan and in northern Ohio. In an ever widening circle crop destruction has gone on for weeks, cumulative in results, until the situation is little short of a national disaster. Little showers widely scattered, but touching but a limited portion of the stricken territory, have brought temporary relief to suffering humanity, but have been wholly inadequate to check in the slightest the crop destruction being wrought in the corn belt. The alarming feature now is that crop deterioration is going on over so vast an area that showers or even good, soaking rains here and there can reach but a fraction of the area affected. Nothing but a general rain over the Ohio, Mississippi and Missouri valley will suffice, and natural conditions favor no such general visitations in July and August. The showers of the past week cover what equals but a fraction

of the area freshly involved in drought conditions during the same period. The most magnificent winter wheat ever grown has this year made the best development in the states whose corn crop is drought blasted, and their surplus of wheat will compensate in some measure for their corn failure. Spring wheat conditions have materially changed during the last ten days, drought, fierce heat and hot winds seriously reducing crop results in Nebraska, Iowa and South Dakota. Similar weather conditions, supplemented by a serious visitation of chinch bugs, did considerable damage in southern Minnesota. In the Jim River Valley of North Dakota some counties show considerable injury, but the state as a whole, and likewise northern Minnesota, almost maintain early promise. Harvest is in full swing up to North Dakota, but the crop in the districts affected by heat has been prematurely ripened and quality as well as quantity is lowered.

May Lynch Negro Murderer.

Fairmont, W. Va., July 27.—Fountain Gordon, a negro, shot and killed Belle Campbell and fatally wounded Mattie Simpson, both white, at Monongah and ran away. He was later arrested and is in jail here, but he may be lynched at any moment. Belle Campbell kept a miners' boarding-house and the shooting was the result of a dispute over a board bill claimed to be long overdue. There is great excitement at Monongah, and it is feared an attempt will be made to lynch Gordon. The sheriff has called in all of his deputies and announces that he will defend the jail while life lasts.

COKE DANDRUFF CURE

Is Rapidly Curing All of Those In Janesville and Vicinity Who Have been Annoyed with The Troublesome Disease.

Itching Scalp, Eczema and Falling Hair Readily Succumb to This Great Remedy.

The public are mightily pleased at the success achieved in the cure of Dandruff and all forms of Scalp and hair troubles. Many people who have been doctoring their heads for years with so-called dandruff cures, tonics, shampoos, etc., have obtained more and better results after using Coke Dandruff Cure for less than three weeks than they did from anything ever used. Smith Drug Co. continue to receive the strongest praise from parties who obtained samples. We could fill pages with names of leading people in this city and vicinity who have been either benefited or cured by Coke Dandruff Cure. Testimony as to the efficacy of Coke Dandruff Cure is coming in from every direction, proving conclusively that every claim made is true.

Kodol

Dyspepsia Cure

Digests what you Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

It can't help but do you good

Prepared by E. O. DeWitt & Co., Chicago. The \$1. bottle contains 2½ times the 50c. size. When you suffer from biliousness or constipation, use the famous little liver pills known as DeWitt's Little EARLY RISERS. They never gripe. M'CUE & BUSS.

NOTICE!

Now that the wall paper rush is over, we are better able than ever to care for your wants. The treatment of wall papers nowadays differs widely from the old-fashioned methods. They are adjusted to the walls and their surroundings with the same care for artistic effect that the artist gives when applying his colors to the canvas. Floral designs are cut out and applied with all the effectiveness of a mural painting; striped designs are prettily mired and made to yield a much handsomer effect than their cost would intimate. Inexpensive papers for bedrooms are handled in many ingenious ways; for example, rooms with low ceilings are made to look higher, or by another treatment the reverse effect is produced. Such work, of course, must be done by experts; and we employ skilled artists and designers to assist our customers in making selections and give helpful advice on all subjects referring to interior decoration.
